---

## Summary

---

To secure a Full-Stack Developer position where I can leverage my expertise in front-end and back-end technologies, problem-solving abilities, and experience in developing user-centric applications to deliver high-quality, scalable solutions that enhance user experiences and support business growth.

## Experience

---

### Tech grass root | Ilorin, Kwara state

#### Tutor | 08/2024 - Present

I teach coding at Tech Grass Root, dedicating 3 hours per day to both front-end and back-end technologies. My approach focuses on clearly explaining the fundamentals to ensure students build a solid foundation, making it easier for them to grasp advanced concepts as they progress.

### Kwara State | Ilorin Kwara state

#### Full Stack Developer Intern | 08/2024 - Present

As a Full Stack Developer at Kwaratech, I contributed to building an innovative Learning Management System (LMS) using the MERN stack. The platform was designed to provide students with the flexibility to learn at their own pace, offering a user-friendly interface for course access, progress tracking, and interaction with instructors. My role involved developing both the frontend and backend, ensuring seamless performance, and integrating key features like user authentication, course management, and responsive design to enhance the learning experience.

### KHALIDA.NG | Ilorin Kwara state

#### Full stack dev freelance | 08/2024 - 09/2024

Developed and launched a custom e-commerce website for a business enterprise, resolving key issues with their previous online sales platform.

Identified and addressed critical pain points in the existing system, leading to a streamlined shopping experience and a significant boost in online sales.

Designed and implemented a tailored CMS solution that addressed unique business needs, improving product management efficiency and enhancing overall user engagement. [link](#)

### Experience UNIVERSITY OF ILORIN, DEPARTMENT OF PHYSIOLOGY

#### Front-end Web | 11/2022 - 06/2024

In trying to incorporate health with Tech, I developed and maintained a responsive, user-friendly, and visually appealing website for the department, designed to effectively showcase its activities and initiatives.

Optimized the website's performance, user experience, and SEO to ensure that the department's work and achievements were prominently and clearly communicated. This got me my first ever award as the developer of the year for span. [link](#)

## Skills

---

Skills HTML, CSS, JAVASCRIPT, REACT, TYPESCRIPT, NODE.JS, EXPRESS, TAILWIND CSS, NEXT JS

## Education

---

### Udemy By Colt Steele

#### Web Developer | 12/2022

The course exposed me as a starter in web development where I understood fundamentals of programming. From JavaScript to its framework.

### Udemy By Jonas

#### Backend with Node

Built series of projects during the course. Participated in series of quizzes.

GPA: 4.27

BSC. HUMAN PHYSIOLOGY
